Moisture Barrier Upholsteries

While styles and types are important when selecting furniture for aged care and seniors living, the upholstery selections and colours are at least equally critical.

Many models can be used in retirement living and residential aged care but the look and feel is impacted largely by the type of upholstery.

The industry has advanced very rapidly in the last few years and many moisture barrier fabrics are now digitally printed in Australia and some are available in custom colours and designs. These can be printed on a range of base cloths which all have varying properties which are recommended for different areas depending on the level of care.

Other moisture barrier fabrics are woven which have a backing, such as cryptons. These are all very functional for seniors living and aged care.

Fit for Purpose

Specialised environments like Aged Care, Retirement Living and Mental Health need specific Fit for Purpose furniture to ensure comfort & safety for their residents.

- Correct seat height for ease of ingress/egress. This applies to all seating areas such as dining, lounge, occasional and outdoor.
- Correct rake of seat and back rests with lumber support to maintain good posture.
- Arms that extend to the front of the lounge to assist the person getting out of the chair/lounge.
- Use of moisture barrier, flame retardant upholsteries and foams.
- Tables with radius corners to eliminate hip/leg skin tears.
- Careful consideration of varied specialist requirements for Dementia and High Care residents.

Delivery and Placement

Our care and attention doesn't stop once your furniture is made.

Our dedicated logistics team stay in touch with you every step of the way – ensuring your products are delivered and installed with the same care in which they were crafted.

Since our manufacturing is local, this gives us greater control of lead times allowing on-time delivery and placement.

Partnering with you to create exceptional spaces for residents, with ease every step of the way.
