## What is Premium?

European design meets superior function in our Premium range, showcasing furniture for common areas, bedrooms and outdoor areas. Enhance your space with unique design.

# / Living

One of the three common areas of a home, the living space is where you can unwind, enjoying time with friends, sharing your thoughts, debating world news, or watching a good movie.

For those that enjoy their own solitude lose yourself in a favourite book or just watch the world go by.

# Moisture Barrier Upholsteries

**While styles and types are important when selecting furniture for aged care and seniors living, the upholstery selections and colours are at least equally critical.**

Many models can be used in retirement living and residential aged care but the look and feel is impacted largely by the type of upholstery.

The industry has advanced very rapidly in the last few years and many moisture barrier fabrics are now digitally printed in Australia and some are available in custom colours and designs. These can be printed on a range of base cloths which all have varying properties which are recommended for different areas depending on the level of care.

Other moisture barrier fabrics are woven which have a backing, such as cryptons. These are all very functional for seniors living and aged care.

# Fit for Purpose

**Specialised environments like aged care, retirement living and mental health need specific fit for purpose furniture to ensure comfort and safety for its residents.**

- / Correct seat height for ease of ingress/egress. This applies to all seating areas such as dining, lounge, occasional and outdoor.
- / Correct rake of seat and back rests with lumbar support to maintain good posture.
- / Arms that extend to the front of the lounge to assist the person getting out of the chair/lounge.
- / Use of moisture barrier, flame retardant upholsteries and foams.
- / Tables with radius corners to eliminate hip/leg skin tears.
- / Careful consideration of varied specialist requirements for Dementia and High Care residents.
- / Our timber products are polished with a Polyurethane Antimicrobial Lacquer to help infection control.

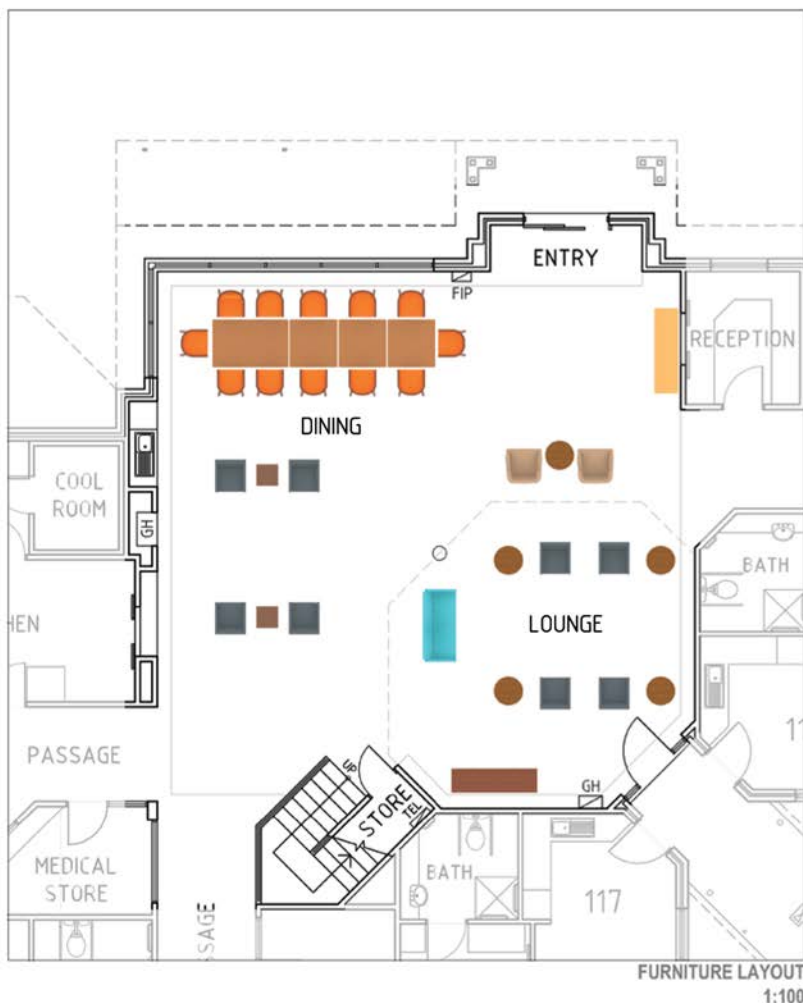

# Delivery & Placement

**Our care and attention doesn't stop once your furniture is made.**

Our dedicated logistics team stay in touch with you every step of the way – ensuring your products are delivered and installed with the same care in which they were crafted.

Since our manufacturing is local, this gives us greater control of lead times allowing on-time delivery and placement.

**We help you create an incredible environment for your residents, while making your life easier.**
